Problem & Core Insight

Case Constraints & Business Context

Constraint

Cannot solve by adding more content or lowering prices

Marketing

Heavy performance marketing, weak proof of outcomes

Operations

Content-heavy model, limited personalization

Finance

High CAC, low lifetime value

Core Problem

Core Problem: Users start courses but fail to complete due to **lack of time, engagement, and visible outcomes**. Drop-offs occur after initial modules with preference for short, actionable content.

Key Insight

Busy professionals don't want more content—they want momentum and visible career outcomes.

The product must shift from "course completion" to "career completion" with AI-guided, outcome-driven learning.

Customer Insights & Personas

B2C/D2C Segment

Target: Self-funded professionals

Discovery: Performance marketing, social media

Need: Fast proof of value, career advancement

B2B Segment

Target: HR/L&D teams, placement cells

Focus: Measurable completion, skill uplift

Need: Workforce readiness, employability

Key Insight

Most of the learners unsure which skills they need

Personalization improves enrollment by significant percent

Short content preferred by busy professionals
